Our neighbor, Stone County has her chin in the air, and has a right to. Unofficial returns on the recent bond election shows that the \$50,000 court house went through with a whoop, and the \$100,000 road bond issue was also carried by a narrow margin. We congratulate Stone County on its progressiveness, and hope its example will not be lost on other Ozark counties, including Taney.

George Morrow, who sometime ago borrowed a saddle from N. D. Wallace and had not yet returned with it, was located at Carthage Monday, and placed under arrest by Carthage officials. Our baseball boys are taking around a subscription paper to assist the team in getting equipment. It is meeting with a generous response, and is worthy of support. We have material for a mighty sweet team, and there is nothing that will put a town on the map like a good ball team. When the team gets practiced to the proper pitch, and the band gets all its equipment and is dispensing music, we will have an irresistible combination. Let's all help the boys.

The Inter county seat Highway Board reports enthusiastic meetings at Taneyville and Kssee Mills on Saturday and Tuesday respectively. It appears that the sentiment for good roads is rapidly gaining ground in Taney county, and they are about ready to pick up some of the prosperity that good roads can bring. Steps are being taken to form special road districts in various parts of the county. We believe that the sentiment for good roads will rapidly develop, and something tangible in various parts of the county will result.

We have a copy of the American Legion Weekly, a paper issued in the interest of the men and women who served in the Great War. This Volume 1 and Number 1 is interesting and devoted to getting the "boys" and also the women who served us, into the great organization of the American Legion. It is \$1.00 per year to members of the Legion, but \$2.00 to all others. Every soldier, whether he served over seas or in camp on this side should belong; also the women who served in the service should likewise become members of this great organization.

Some time ago, during a thunder storm over in the Bradleyville country some sixteen head of cattle belonging to Henry Maggard, and a brood sow took refuge under a maple tree, not far from Mr. Maggard's house. After an exceptionally hard crash of thunder the Maggards rushed out to see what damage had been done, and discovered that the maple tree under which the stock were had been struck. Every head of the stock was flat on the ground and it looked as if the bunch had been cleaned out. However, all but three head of the cattle and the hog came to. While the loss was severe at the present price of cattle and hogs, Mr. Maggard is congratulating himself that it was no worse.
